

INTRODUCING *ULTIMATE*

INNOVATION BY DESIGN

i-mateTM
for Business, for Pleasure, for Life

Introducing

ULTIMATE

Ultimate is a new and exciting range of devices from i-mate™, the specialists in Windows Mobile® devices. The devices are designed with the latest in mobile technology to help you get the most from Windows Mobile® and i-mate™ solutions.

Innovation by Design

The i-mate™ philosophy of Innovation by Design has been used in every sense to create a product range of devices that aims to re-define the category of Windows Mobile® devices.

From the 520MHz Intel processor, to the XGA direct video out, from HSDPA connectivity to the 262k colour VGA LCD touch screen, every component of every device provides the latest and best in mobile phone and PDA technology.

Besides having the assurance of superior technical specifications, customers also have the comfort of choice with five distinctive form factors available. Each model offers a blend of form and functionality, complemented by superior materials and the most exacting production standards.

All devices provide the latest in Ultimate security. Devices can be locked down and erased remotely, irrespective of SIM, network and type of connection.

All Ultimate devices have the latest in VGA touch screen technology for easy navigation and the best visual experience.

All devices in the Ultimate range also feature the Windows Mobile® 6 operating system software.

This means all Ultimate devices support the full range of benefits provided by the latest version of Windows Mobile®. For example:

- Enhanced mobile messaging and time management solution
- Secure and simple corporate access
- Faster connections to contacts
- Faster and easier application development and distribution

Club i-mate™

Service and Content

Every owner of an i-mate™ device can join Club i-mate™. It is our way of providing owners of our devices with a wide range of value-added services that help them use their i-mate™ device to its full potential.

Joining club i-mate™ is easy, and registered device owners have access to subsidised services such as email, software, games, product updates, technical support and more.

As a result, club i-mate™ is currently the world's largest Windows Mobile® user community.

Hosted Exchange® E-mail

Club i-mate™ e-mail is based on Microsoft® Exchange® Server 2003 and provides fully integrated e-mail, contacts and calendar management to all i-mate™ devices.

Support Services

We offer a wide range of support services for all of our devices such as:

Downloads:

- **Software patches and updates.** Also offered to enhance your i-mate™ device.
- **Operator settings.**
- **Manuals and documentation.**

On-line Support:

- **Live support.** This service provides Club i-mate™ members with instant support, 24 hours a day, seven days a week, on-line chat with support specialists about any issue you may have.
- **E-mail support.**
- **Tools and utilities.**
